## METROPOLITAN LIFE BUSINESS SHOWS GROWTH

Insurance in Force Increased  
—Welfare Work Benefits  
Policyholders

OTTAWA, March 9.—Continued progress is shown in the fifth annual report of the Metropolitan Life Insurance Company released today. Life insurance in force passed the twenty billion dollar mark in 1935, an all-time high figure indicative of better conditions throughout Canada and the United States. The number of life policies in force, including 1,870,041 group certificates, totals 42,165,346. Other outstanding features of the report include: a substantial increase in assets bringing the total well over four billion dollars; the payment during the year to policyholders and their beneficiaries of the record amount of \$55,201,584—which was at the rate of \$4.90 a minute for each business day the declaration of the 1935 dividends payable to policyholders totalling \$20,904,801; and the continuation of the Company's extensive health and welfare activities.

"The Company's business in Canada continues to grow," stated T. J. Wright, Vice-President, Harry D. Wright, Manager for Canada. "Over a billion dollars of life insurance represented by 2,075,450 policies is now in force here. The amount paid to Canadian policyholders and their beneficiaries during the year was \$28,412,440. Almost four hundred thousand business days were made in Canadian policyholders without additional charge and nearly four and a half million pieces of health literature were distributed in the Dominion in 1935."

Mr. Wright expressed satisfaction at the results of the Company's national advertising, featuring health messages, and the showing of the technician talking picture "Once Upon A Time," aimed at accident prevention. He pointed out that since 1912, when the Metropolitan commenced business in Canada, the Company has paid out and increased in the Dominion a sum exceeding by \$17,000,000 the amount collected here in premiums, and that the Company's Canadian investments now total \$267,633,143, an increase during the year 1935 of \$10,710,705.

HARRY D. WRIGHT  
Third Vice-President and Manager for Canada, Metropolitan Life Insurance Company, who reports increased investments in the Dominion.

"Life Insurance in Canada has a record of which we can all be proud," said Mr. Wright. "It has fulfilled its stewardship by safeguarding the funds made up of the savings of its policyholders, and it has placed millions of dollars in circulation by the prompt settlement of obligations under its various policy contracts."

Referring to the Company's total business in Canada and the United States, the year's report shows a gain of life insurance in force of \$775,544,101. This gain is reflected in all departments and represents high points in the history of the Company. The total insurance in force is now \$20,904,801, of which \$1,870,041 is in the Ordinary Department. The total investment in Canada is \$267,633,143, and group insurance accounts for 14.5% with a total of \$2,075,450 policies.

Assets increased \$10,710,705 in 1935 and totalled \$2,384,802,511 on December 31st last. On this date the surplus funds were \$250,800,725. A substantial part of the increase in assets is represented by larger holdings of government bonds. Policy loans increased only one half of 1%, which is the smallest increase in many years, and furnishes sound evidence of the return of better times in Canada and the United States.

For the fourth consecutive year, the Metropolitan distributed more than half a billion dollars to its policyholders and beneficiaries in death claims, matured endowments, dividends, disability benefits and other payments. More than three-fifths of the total was paid to living policyholders—a powerful reflection of the saving that, in life insurance, "you have to die to win."

An use of the Metropolitan's business can be observed by reference to some of these annual figures to a daily basis. For instance, the yearly average of payments to beneficiaries and policyholders and addition to reserve was more than two million dollars. An average of 2,580 claims were paid every day; and every day saw an average of 18,342 life insurance policies issued and revived; and \$10,527,410 in life insurance issued, revived and increased.

## TIGHTENING UP TRAFFIC LAWS URGED

Recommended by Coroner's Jury Probing Fatal Highway Crash

CALGARY, March 9.—More rigid enforcement of the Vehicle and Highways Traffic Act "to protect those who wish to use the highways in a proper manner," was recommended by a coroner's jury here Saturday night at an inquest into the death of William Oliver Smith and Samuel Miller.

**KILLED INSTANTLY**  
Smith, killed almost instantly when the automobile he was driving skidded and rolled almost 300 feet and landed in three feet of water in a ditch, came to his death from injuries received while driving in a reckless manner, the jury decided.

Miller, a passenger in the car who died in hospital in Calgary last Thursday, died as a result of shock and bronchial pneumonia, the verdict said.

**TRAVELLING FAST**  
It was believed the automobile was travelling at high speed when it left the road and began to skid.

The jury recommended "that the Attorney-General of Alberta take steps to see that the Vehicle and Highways Traffic Act be more rigidly enforced to prevent accidents."

## RATIFICATION ST. LAWRENCE PACT SOUGHT

U.S. Government Aims At Approval at Next Congressional Session

WASHINGTON, March 9.—A new drive by the United States government for ratification of the St. Lawrence waterway treaty with Canada—aimed at approval of the pact at the next congressional session—was intensified Sunday in reliable senate quarters.

**ASKED PITMAN**  
The President was asked to address a joint gathering of the Great Lakes Waterway Association and other groups favoring completion of the project as a means of making a considerable area of interior North America to Ocean-going shipping. Finding himself unable to leave the capital, Mr. Roosevelt asked Pitman to make the trip.

The Nevada said today he would have some "surprises" to disclose. He was confident as to indication that the administration may be thinking of more concessions to the opposition, which thus far has fought the pact successfully.

**MAJOR SETBACK**  
The bill provided one of the first major congressional setbacks for the administration. Despite considerable activity on his part, the late senate vote on the treaty was 46 for ratification to 42 against. Ratifications lacked 18 votes of the necessary two-thirds majority. It is believed that the administration believes it can be persuaded to change its position.

Any administration drive, of course, must be timed to coincide with the outcome of the November elections. But the congressional session will open 16 days before inauguration of the next presidential term.

**Canadian Govt.**  
**Asks Unknown**

OTTAWA, March 9.—Attitude of the Canadian government to a new drive in United States for ratification of the St. Lawrence Waterway treaty will not be made known at least until Senator Pitman has spoken in Detroit next Wednesday, was the view expressed here last night.

Washington dispatches stated the Senate would have some surprises in that respect.

**NO EXTENSIVE TALK**  
Since the defeat of ratification by the United States senate there has been no extensive discussion of the pact in Canada. It was merely mentioned in the general election campaign.

Negotiations leading to the completion of the treaty were started following an outbreak of rioting here in the Hoover and MacKenzie King administration in 1924. Negotiations were continued under the Bennett government until the treaty was signed in July, 1932.

**FAILED TO PASS U.S.**  
Certain other treaties entered into between Canada and United States were ratified by the Canadian parliament but failed to pass the United States senate. Accordingly it was agreed the waterway treaty would not be submitted to the Canadian parliament for ratification until the U.S. senate had endorsed it.

**John Allen Wins Dog Sled Derby**

FAIRBANKS, Alaska, March 9.—John Allen, his crippled lead dog on his sled, drove his team of malamutes across the finish line on Sunday to win first place and \$1,000 in the annual 90-mile Fairbanks dog team derby.

OTTAWA, Kan., March 9.—Givoli Bevis is a patient now who was jolted by the hospitality of his hosts, having robbed him of \$20

# Metropolitan Life Insurance Company Policyholders

## have an interest in this Annual Report

It may be assumed that these policyholders took out their insurance through a sense of responsibility for those in whose protection they are interested. When they pay their premiums, there falls upon the Insurance Company a responsibility to pay current claims and to provide adequate funds for the payment of all future obligations.

The figures below show the amount of the claims paid by this Company last year. They also show how well prepared the Company is to meet its responsibilities in the future.

The number of policies and the amount of insurance in force reflect the confidence reposed in the Company by the people of Canada and the United States.

## MARKET MOVEMENTS

torials: mines, all groups  
trials: steel, less consider-  
able ground today.

**Wheat.**  
Edmonton: Offer 1, closing at  
44¢ (No. 1 Nor.).  
Winnipeg: Offer 2-1½, closing  
164¢ (May).  
Saskatoon: Offer 2-1½, closing  
at 99½-99 (May).

Steel maneuvers on the Winnipeg  
Grain Exchange Monday. A burst of  
selling in the closing stages dissipated  
early gains and left the market 1 to  
½ cent lower at the close.

The May futures closed at 84, July  
85-85½ and October 85½.

The price structure moved into  
higher ground shortly after the open-  
ing, the strength of higher quotations  
at Liverpool.
